**25<sup>th</sup> April 2022**

**ONE DAY TRAINING PROGRAMME ON  
Advanced Product Quality Planning (APQP)  
AT  
ACMA OFFICE, MUNIRKA, NEW DELHI-110 067  
9.30 A.M.: FRIDAY 13<sup>th</sup> May 2022**

It has been our endeavor to provide valuable services to our members. In an effort to strengthen this further, ACMA (Northern Region) is organizing a **Training Program on Advanced Product Quality Planning (APQP)** from 09.30 a.m. to 5.30 p.m. physically at **Munirka ACMA HO office**, taking into consideration the requests that we received from ACMA NR Membership to convert the 2 days Virtual Training on the subject earlier announced for 11<sup>th</sup> & 12<sup>th</sup> May to a Single day Physical training for its more effectiveness.

**Introduction and Course Overview**

**What is APQP?**

APQP is a structured process that includes critical tasks from concept approval through production. The aim is to create a product quality plan for developing and manufacturing products that meet customer requirements.

APQP is a set of standard procedures that documents the ability to produce a capable part with a reliable and repeatable process through a mutual understanding of the requirements and thorough risk assessment.

APQP is part of the five Core Tools (IATF 16949-compliant) for effective quality management with PPAP, FMEA, MSA, and SPC being the other core tools.

**Topics to be covered is provided below:**

- Definitions, Benefits, Goals, Cross functional Team Approach to APQP
- Process for Product Quality Planning.
- Planning and Defining the Program.

- Product and Process Design and Development.
- Process and Product Validation.
- Feedback Assessment & Corrective Action.
- Control Plan Methodology.
- Product Quality Planning Check list.
- Purpose of APQP and the relationship among APQP Deliverables like FMEA, Control Plan etc.
- Importance of the Key APQP Deliverables and the skills to implement APQP.
