In view of safety of the participants and to avoid the infection and spread of Covid-19, this year's QC competition too, is being organised "Online" by ACMA, just like last year.

ACMA's QC Competition over the years has become a much-awaited event giving fair chance to all members including the SSI companies to share and showcase efforts being taken for problem solving and promoting QC as a culture.

We are also pleased to inform you that the **National QC Competition**, this year would be **hosted by the Western Region, on 20th August 2021**, again an online version.

The online competition platform will enable more number of teams to participate, as it eliminates the need for travel.

Being the Online edition of the Competition, there are few changes, as under:

- The competition would be organized in a Digital platform (Cisco WebEx).
- Presentation Time slots would be assigned to each team for participation that would be communicated one day prior to the event, to the participating teams.
- Winners would be announced in an online **Valedictory Session** on the **Friday, 30th July 2021**.
- Jury's decision would be final and cannot be challenged.

- Participation Certificates for competing teams would be couriered to companies post the event upon receiving full payment towards participation fees.

To ensure an inclusive growth, a level playing field at the competition has been provided to members from the Small Sector to actively participate and promote QC activities. SSI members stand to gain a lot by competing in the QC Competition as they would be able to show-case what steps they have taken to enhance quality and employee involvement and at the same time would also be able to witness presentations of other companies both SSI and Large & Medium companies. Experts views and suggestions from the Panel of Jury Member will be an added advantage to carry it forward.
