

# TWO DAYS WORKSHOP ON PROJECT MANAGEMENT FOR MANUFACTURING & EXPORTS

9.30 a.m: 21<sup>st</sup> & 22<sup>nd</sup> January 2020 @ Essex Farm House,  
Sri Aurobindo Marg, New Delhi-110016

Increased sourcing from India, as well as other sourcing destinations outside of India is becoming more competitive. Other customer requirements such as "Responsiveness" & excellent "Project Management", capability to deliver New Product development projects from India have become critical for the Auto components industry.

Apart from this, industry is focusing on more & more project based work within their organizations to be able to better manage various business objectives & targets & hence are looking out for a more professional approach. Nature of Projects could be new plant "start-ups", addition of new facilities & capacity increase, optimizing internal work processes, re-organizing or re-deploying manpower, building flexibility in their operations, achieving higher targets of quality, reducing process variation etc. Hence the requirement & importance of project managers has increased many folds.

Feedback from Global and Indian OEMs, IPOs and other customers to ACMA also has highlighted the need for companies to hone their Project Management skills. Based on this feedback, ACMA together with experts has designed and developed a Workshop on Project Management to address the challenges for the manufacturing sector and companies who are into exports.

This two-day "Workshop on Project Management" focusing on manufacturing and exports, has been organized with the support of the Ministry of Commerce, GOI. The workshop is scheduled on 21<sup>st</sup> & 22<sup>nd</sup> January 2020 @ Essex Farm House, Sri Aurobindo Marg, New Delhi - 110016.
