

### **Speaker Bios:**

#### **Tom Roberts**

##### **VP Automotive & Mobility, QAD**

Tom serves as QAD's Vice President, Automotive and Mobility Sector. His career in IT has covered all the bases. From answering help desk calls at EDS, to consulting for Accenture, to enabling Manufacturing, Procurement, and Shared Services Operations for Johnson Controls, and to serving as Vice President & Chief Information Officer for Yanfeng Automotive Interiors, he's had a lot of opportunity. Today, Tom talks to QAD clients old and new about how today's cloud-based ERP technology can deliver high value to global automotive enterprises.

#### **Raman Mehta**

##### **VP & Chief Information Officer, Visteon Corporation**

Raman leads all facets of global information technology, including designing, developing and implementing global IT platforms and business processes to increase performance and help Visteon leverage technology as a competitive advantage. Mehta is passionate about connected and autonomous vehicles and applying emerging AI technologies for Industry 4.0.

Mehta joined Visteon in April 2017 from Fabrinet, where he was senior vice president and CIO at the global engineering and manufacturing services provider of complex optical and electromechanical components. He previously served as CIO and chief process architect for EWIE Company, a Tier 1 supplier to Ford Motor Co., driving enterprise-wide technology transformation. Before that, he spent more than 13 years at Oracle USA, Inc., where he was a director and advised Fortune 500 clients on business transformation.

#### **Terry**

**Onica**

##### **Director of Automotive, QAD Inc.**

As Director of Automotive at QAD, Terry is responsible for global marketing activities which include strategy and positioning, product and offering, people and knowledge, and field and sales marketing support for the automotive vertical. Terry works in close concert with customers to drive best practices and earn preferred supplier status. She also is an industry leader in the development and global adoption of supply chain industry standards and best practices.

#### **EtienneOuvry**

##### **Automotive Business Consultant, QAD**

Etienne has over 30 years experience working with automotive/industrial manufacturers worldwide and is currently the Global Business Consultant for QAD's premier automotive customers. He ensures QAD global accounts improve operational performance all over the world with QAD products and services.
