ACMA

Automotive Component
Manufacturers Association of India

PROFILE OF EXHIBITORS

Automotive Component Manufacturers Association of India

The Automotive Component Manufacturers Association of India (ACMA) is the apex body representing the interest of Component Industry in India. Its membership of over 800 manufacturers contributes to more than 85 per cent of the auto component industry's turnover. ACMA is an ISO 9001:2015 Certified Association.

ACMA's charter is to develop a globally competitive Indian Auto Component Industry & strengthen its role in national economic development and to promote business through international alliances.

The automobile industry in India is recognized as a core sector that contributes 49% to India's manufacturing GDP, 7.5% to the overall GDP at large, and is responsible for around 32 million jobs. While this US\$ 100 billion industry witnessed a recovery in a post COVID environment, it continued to face headwinds related to supply constraints on account of chip shortage, overbooking, rural distress, fuel price-led inflation and skyrocketing commodity prices.

Despite the supply-side issues, as vehicle sales & exports gradually gained traction, the auto component industry demonstrated a remarkable performance in FY 2021-22. Significant growth was witnessed across all segments including supply to OEMs, Exports as also the Aftermarket. In this backdrop the component industry sized-up to Rs.4.20 lakh crore (USD 56.5 billion) registering 23 per cent growth, thus outpacing its highest ever turnover of Rs.3.95 lakh crore in FY18-19.

Auto Component sales to OEMs, in the domestic market stood at Rs.3.41 lakh crore (USD 45.8 billion), grew by 22 per cent compared to the previous year. Enhanced raw material prices, consumption of increased value-added components and shift in market preference towards larger and more-powerful vehicles contributed to the increased turnover of the auto-components sector.

Exports of auto components witnessed a robust growth of 43 per cent to Rs. 1.41 lakh crore (USD 19.0 billion) in 2021-22 in contrast to Rs.0.98 lakh crore (USD 13.3 billion) in 2020-21. North America accounting for 32 per cent of exports, saw a growth of 46 per cent. Europe accounted for 31 per cent and Asia for 25 per cent grew 39 per cent and 40 per cent respectively.

The imports of the component grew by 33 per cent in 2021-22 to Rs.1.36 lakh crore (USD 18.3 billion) from Rs.1.02 lakh crore (USD 13.8 billion) in 2020-21. Asia accounted for 65 per cent of imports followed by Europe and North America at 27 per cent and 7 per cent respectively. Imports from Asia grew 30 per cent, while those from Europe by 39 per cent and from North America by 36 per cent.

Due to increased movement of vehicles and surge in demand for used-vehicles led to buoyancy in the aftermarket, across all segments. The turnover of the aftermarket in FY 2021-22 stood at Rs. 74,203 crore (USD 10.0 billion) compared to Rs. 64,524 crore (USD 8.7 billion) in the previous year.

ACMA's active involvement in the trade promotion, technology up-gradation, quality enhancement and collection & dissemination of information has made it a vital catalyst for the component industry's development in India. Its other activities include participation in international trade fairs, sending trade delegations overseas and bringing out publications on various subjects related to the automotive industry.

ACMA also contributes in upgradation of manufacturing practices by skilling & mentoring of its members through various cluster programs and special projects such as 'Asset Turnover Improvement', 'Uptime Improvement', 'Zero Defect Quality' and 'Sustainable Manufacturing' among others.

ACMA is also well represented on a number of panels, committees and councils of the Government of India through which it helps in the formulation of policies and regulations pertaining to the Indian automotive industry.

For exchange of information & for co-operation in trade matters, ACMA has signed MoUs with its counterparts in Argentina, Australia, Brazil, Canada, Egypt, France, Germany, Hungary, Iran, Italy, Japan, Kazakhstan, Malaysia, Mexico, Nigeria, Pakistan, Poland, Russia, South Africa, South Korea, Spain, Sri Lanka, Sweden, Taiwan, Thailand, Tunisia, Turkey, UK, Italy, USA and Uzbekistan.

Further information and data on the Indian automotive industry is available on the ACMA Website: www.acma.in
