# **ACMA**

Automotive Component Manufacturers Association of India

*Automotive Component Manufacturers Association of India*

The Automotive Component Manufacturers Association of India (ACMA) is an apex body representing India's Component Industry. It boasts a membership exceeding 850 manufacturers, contributing to more than 85% of the auto component industry's total turnover. ACMA proudly holds ISO 9001:2015 certification.

ACMA's primary mission revolves around stimulating growth, job creation, and economic prosperity. Through its relentless dedication to research & development initiatives, ACMA ensures that India maintains a leading position in global automotive component manufacturing.

With its continually expanding network, ACMA empowers businesses by providing invaluable resources, industry insights, and opportunities for collaborative endeavours. The organization plays an indispensable role in shaping policies and regulations that nurture an environment conducive to sustainable growth.

India's automotive industry is a vital sector, contributing 49% to the country's manufacturing GDP, 7.5% to the overall GDP, and supporting approximately 38 million jobs. Despite challenges like chip shortages, overbooking, fuel price-induced inflation, and rising commodity prices, the overall industry is valued at \$150 billion.

In the fiscal year 2022-23, on the back of strong vehicle sales, a robust aftermarket, and growing exports, the auto component industry achieved unprecedented success. It reached a size of USD 69.7 billion (Rs. 5.60 lakh crore), recording a remarkable growth of 32.8%, surpassing the previous high turnover of USD 56.5 billion (Rs. 4.20 lakh crore) in FY21-22. Exports increased by 5.2% to USD 20.1 billion (Rs. 1.61 lakh crore), while imports grew by 10.9% to USD 20.3 billion (Rs. 1.63 lakh crore). The Aftermarket, estimated at USD 10.6 billion (Rs. 85,333 crores), also saw steady growth, registering a 15% increase. Auto component sales to OEMs in the domestic market surged by 39.5% to Rs. 4.76 lakh crore.

This growth in domestic auto component sales to OEMs, reaching USD 59.3 billion (Rs. 4.76 lakh crores), reflects a 39.5% increase compared to the previous year. The demand for higher-value components and a shift towards larger, more powerful vehicles contributed to this growth.

In 2022-23, exports of auto components grew by 5.2% to USD 20.1 billion (Rs. 1.61 lakh crore) compared to USD 19.0 billion (Rs. 1.41 lakh crore) in 2021-22. North America accounted for 32% of exports, with an 8% growth, while Europe (31%) and Asia (26%) saw 3% and 4% growth, respectively. Key export items included drive transmission and steering, engine components, body/chassis, suspension, and braking systems.

Domestic market traction also led to an increase in component imports into India, growing by 10.9% in 2022-23 to USD 20.3 billion (Rs. 1.63 lakh crore) from USD 18.3 billion (Rs. 1.36 lakh crore) in 2021-22. Asia represented 66% of imports, followed by Europe (26%) and North America (6%), with growth rates of 12%, 6%, and 23%, respectively.

Post-pandemic, increased vehicle movement and demand for used vehicles boosted the aftermarket across all segments. The aftermarket turnover in FY 2022-23 reached USD 10.6 billion (Rs. 85,333 crore), compared to USD 10.0 billion (Rs. 74,203 crore) in the previous year.

ACMA plays a crucial role in the industry's development in India, actively engaging in trade promotion, technology enhancement, quality improvement, and information dissemination. It participates in international trade fairs, sends trade delegations overseas, and publishes materials on various automotive industry-related subjects.

ACMA also contributes to manufacturing advancements by offering skills training and mentoring through cluster programs & special projects such as 'Asset Turnover Improvement,' 'Uptime Improvement,' 'Zero Defect Quality, and 'Sustainable Manufacturing,' among others. Additionally, ACMA is well-represented on various government panels, committees, and councils, helping shape policies and regulations for the Indian automotive industry.

For information exchange & cooperation in trade matters, ACMA has signed Memoranda of Understanding (MoUs) with counterparts in multiple countries, including Argentina, Australia, Brazil, Canada, Egypt, France, Germany, Hungary, Iran, Japan, Kazakhstan, Malaysia, Mexico, Nigeria, Pakistan, Poland, Russia, South Africa, South Korea, Spain, Sri Lanka, Sweden, Taiwan, Thailand, Tunisia, Turkey, the UK, the USA, & Uzbekistan.

You can find more information & data about the Indian automotive industry on the ACMA Website: [www.acma.in](http://www.acma.in)

## **DISCLAIMER**

Comprehensive range of high quality products

**PERFORM@CHANGE**

# **ASSOCIATE SPONSORS**

# MANUFACTURING FACILITY

## PRESSES WITH IBH:

4000 Ton, 2500 Ton, 1600 Ton,  
1300 Ton, 1000 Ton

## HAMMERS:

6 Ton, 3.5 Ton, 3 Ton, 2.5 Ton

## HORIZONTAL UP-SETTERS:

6", 3 1/2" & 3"

## TOOL SHOP:

IN-HOUSE DIE SINKING FACILITIES INCLUDES  
VERTICAL MACHINING CENTRE, EDM, COPY MILLING,  
CNC LATHES.  
IN-HOUSE 3D CAD / CAM WITH SOLID MODELING

## DESIGNING FACILITIES:

PRO/E, UNI-GRAPHICS & SOLID WORKS

## HEAT TREATMENT:

IN-HOUSE FULLY AUTOMATIC CONTINUOUS  
HEAT TREATMENT PLANT FOR PROCESS LIKE NORMALIZING,  
HARDENING & TEMPERING, ISO ANNEALING.  
BATCH TYPE HEAT TREATMENT PLANT FOR  
OPEN FORGING AND RINGS
